

Upcoming Facility Outage Process Cooling Water (PCW)

Attention Users: We will be installing an upgrade to our PCW system August 12-14. All tools that use the PCW system will be unavailable and marked as "down". Due to the large number of tools in the cleanroom using PCW, **we will be closing the cleanroom Monday and Tuesday August 12-13.**

Additionally, almost all of the electron microscopes and both XRDs utilize this PCW system and will also be unavailable. Check the tool status on our [webpage](#). We anticipate the outage to span Monday and Tuesday, and staff will begin bringing tools online as soon as the outage ends. However, some tools may need an extended warm-up/pump-down time before use. All tools should be back online by Wednesday morning if all goes well. As staff restores access to a tool, the webpage will be updated in real time. Also keep an eye on your email, as tool status changes will prompt an email to the user list for that tool.

Upcoming RSC Events:

- FSI - [Taste of Tech Seminar](#) - Friday August 9th at 11:45am - NRF 115 or [ZOOM](#)
- Game Night - NRF 115 - Thursday August 15th at **5pm RSVP**
- User Advisory Committee Meeting - **ZOOM + NRF115** - Thursday 8/22 at Noon

- **Ongoing:** [New publication? Data collected at the RSC? Click to tell us!](#)
 - Still writing? Check out our new easy acknowledgement [templates](#).
- **Ongoing:** [Submit Photos Early for the Annual Nano Day Image Contest:](#) Contest is held annually in October. You can submit for the 2024 Contest [HERE](#)

Safety Side Note:

Don't divide your attention too much

Remember, these gloves are designed to protect you from hazardous acids. If you handle your phone, laptop, tablet, etc. while wearing these, you are contaminating your device... and putting yourself at risk of exposure later.

Please don't use devices, or the TUMI kiosk stations while wearing the acid gloves.
