Nanoscale Research Facility Weekly Update - October 8

Due to weather, NanoDay will be rescheduled

Our virtual event activities are being rescheduled to Wednesday November 6th. The in-person events will also be rescheduled to a later date (TBD). It's not too late, we can still accept your submissions for the image contest, deadlines will be extended and you have more opportunity to get your submissions in. Did you submit a poster to present for NanoDay? Great take one of those images and submit it for the image contest too, all the work is already done. Got SEM, AFM, CT or other cool images from your samples or anything you looked at just for fun? Send one (or a few) our way. You are not limited to a single submission, and we would love to see more submissions before the event. Also, I didn't tell you this, but I hear there are cool prizes for the image contest winners too!

Submit you image(s) <u>HERE</u>, and register to attend the NanoDay activities <u>HERE</u>. Once a new date and schedule is finalized we will spread the word again.

Upcoming RSC Events:

- Hurricane Closure UF closed and all NRF facilities closed- Wednesday-Thursday October 9th -10th. Please be aware tools will be shut down, and may be slow to start back up upon reopening.
- Homecoming NRF Closed (AHA only) Friday October 18th
- User Advisory Committee Meeting ZOOM + NRF115 Thursday 10/24 at Noon
- Game Night NRF 115 Thursday October 24th at 5pm RSVP
- NRF Virtual Open House Wednesday November 6th
- Ongoing: New publication? Data collected at the RSC? Click to tell us!
 Still writing? Check out our new easy acknowledgement templates.
- Ongoing: Submit Photos for the Annual Nano Day Image Contest: You can submit your image for the 2024 Contest HERE

Safety Side Note:

Important Reminder

NEVER prop open facility doors or allow others to follow you into the building, especially after hours. This "kind" gesture could lead to unauthorized access, severe safety issues, or vandalism. Users found in violation of this rule risk suspension from the facility. If someone behind you should be in the building they can open the door too.

If you see a door propped open, please close it.

Get your Hurricane prep done today if you haven't already done it, and stay safe out there.
