

December News

As the end of the year, and end of semester approach, please take a few minutes to clean up your baskets and any materials you may have left in the labs. There will be some equipment relocations occurring this month, and we don't want anything to accidentally get discarded or misplaced. Remember the cleanroom will be closed December 16th through the end of the year, and the entire NRF facility will be closed and locked (with no AHA) at end of business December 24th through the end of the year. Please plan accordingly and know tools may not be available first thing on January 2nd, as there may be warmup/pump down cycles to initiate first.

Holiday Puzzle Swap Available Now

We have prepared a blind puzzle exchange for the holiday season. The swap table has been stocked with a few puzzles available for exchange, each wrapped and marked with piece count. You can bring in a puzzle of your own, similarly wrapped and marked, and swap it with one from the table. Don't like what you swapped for? Finished your new to you puzzle quickly? Feel free to swap again. The puzzle swap will be available though end of business on December 23rd. Feel free to swap anytime, the table is located in the lobby across from the community puzzle project table.

Upcoming RSC Events:

- User Advisory Committee Meeting - [ZOOM](#) + NRF115 - Thursday 12/5 at Noon
