#### Nanoscale Research Facility Weekly Update - April 07

# The Weekly Update Arrived Early to Ensure You Know About HF Training

Attention all NRF Cleanroom users.

Many of you have HF acid safety training that is either expired or will expire in the near future. Please check your user profile and take a HF safety training session BEFORE expiration to avoid losing NRF access. EH&S has created a class for TOMORROW and will create more as needed (provided there is enough demand). We strong encourage everyone to attend a a session BEFORE their current training expires to prevent issues with access to the cleanroom. Don't let this requirement prevent you from getting your work done.

We have an offering April 8<sup>th</sup> at 10am set up in myTraining, so everyone who can attend that session can register using this direct link:

#### **Activity Details - SumTotal**

You have to register for this course yourself. The NRF cannot register for you. Click the link above and register.

### **Upcoming NRF Events:**

- Game Night NRF 115 Thursday April 17th at 5pm Please RSVP, special requests by 4pm 4/16 please.
- User Advisory Committee Meeting ZOOM + NRF115 Thursday April 24th at Noon - Come join the discussion and hear the updates first.
- Ongoing: Do you feel like you need some practice time on a tool before you start paying to use it? <u>Email us</u> and ask about an Extended Training Practice Session.

- Ongoing: New publication? Data collected at the NRF? Click to tell us!
  - Still writing? Check out our new easy acknowledgement templates.

 Ongoing: Submit Photos for the Annual Nano Day Image Contest: It's very early but you can submit your image for the 2025 Contest HERE

## **Safety Side Note:**

#### Did you get the x-ray dosimeter memo?

Our facility has transitioned from having users of X-ray generating tools wearing dosimeters to having the rooms housing these tools wearing dosimeters. If you were subscribed to the EH&S quarterly dosimeter subscription ONLY for use of tools in our building, you no longer need to subscribe. Save some \$\$ and cancel your dosimeter. To cancel, return your last one to EH&S radiation services and be sure to tell you you no longer need to be issued a new one.
