

Attention users, we are seeking photo/image submissions for general use in our weekly update newsletter. These images can be vacation photos, pet photos, research images, or other just for fun images. We ask that if your photos include identifiable people you get their permission before submitting the image for us to use. By submitting the image you agree to let us "publish" the image in our weekly newsletter which will be saved to our teams archive and posted for a week to our website. You shall retain all other rights to the image. Got something you are ready to share? Submit your images [HERE](#). Please note the upload file size is 10MB, the newsletter image size is limited to 5MB, some compression or cropping may be necessary if you submit files over 5MB. Don't forget, research images can also be submitted for our annual [nanoday image competition](#) as long as they have a scale bar. The competition takes place in the fall but we accept submissions year round!
