

# Nanoscale Research Facility Weekly Update February 03

---

## Check Out Nicks TEM Youtube Channel!

Did you know NRF staff member Dr. Nick Rudawski hosts a Youtube channel devoted to learning and advancing TEM use? HWCOE ran a story about his channel, you can find the full story [here](#). You can check out the TEM content [here](#). If you are thinking about learning TEM, or looking to expand on your foundational knowledge, this is a fantastic free resource.

## Upcoming NRF Events

- Users (UAC) Meeting - Thursday 02/19 @ Noon - NRF 115 or [Zoom](#)
- Game Night Thursday February 19th, 5-8pm, NRF 115 Click to [RSVP](#)

• **Ongoing:** Do you feel like you need some practice time on a tool before you start paying to use it? [Email us](#) and ask about scheduling a subsidized extended training practice session.

• **Ongoing:** New publication? Data collected at the NRF? [Click to tell us!](#)

- Still writing? Check out our new easy acknowledgement [templates](#).

• Miss something from a previous week? You can find our weekly update archive on our Microsoft teams channel. [Click to Join us on Teams!](#)

## Safety Side Note

A message from Warren Dixon, Ph.D., Interim Dean & Distinguished Professor, Herbert Wertheim College of Engineering:

*Recent national and international events have been difficult and unsettling for many. I want to acknowledge that people in our community may be feeling stress, grief, anxiety, distraction, or exhaustion (especially trying to reach loved ones in different time zones). You are not alone, and we care about your well-being.*

Your well-being is our top priority. As a result, there are numerous **support resources available**, and I encourage you to consider using them if you need help. UF students in immediate mental health distress can access crisis support via the UF Counseling and Wellness Center (CWC) (352-392-1575) (24/7 with afterhours counselor on-call), the Alachua County Crisis Center (352-264-6789) (24/7 live help), the **U Matter We Care** initiative, or by calling/texting 988. You can also connect with the UF Dean of Students Office for help navigating university support and care options.

---

If you ever get cold...just stand in a corner.  
They are usually around 90 degrees!!!
