Component information:

Eye: Causes eye irritation. **Skin:** Causes skin irritation. **Ingestion:** May be harmful if swallowed. **Inhalation:** Single exposure unlikely to be hazardous. High vapor concentration causes irritation to the nose, throat, and lungs. **Systemic Effects:** No hazard in normal industrial use. **Reproductive & birth defects:** Exposures having no adverse effect on the mother should have no effect on the fetus.

1-Methoxy-2-propanol acetate (108-65-6)

1-Methoxy-2-propanol acetate (PGMEA) can cause skin, eye, and respiratory irritation. Extreme or prolonged exposure may cause gastric and central nervous system effects. Long term, high level exposure to PGMEA has resulted in adverse effects to the livers and kidneys of experimental animals. PGMEA is readily absorbed through intact skin.

**Advice to doctor /
Treatment:** Administer oxygen if there is difficulty in breathing.

Section 05 - Fire fighting measures

Flash point: 38.00 °C
Method: closed cup

Suitable extinguishing media: Carbon dioxide, water, alcohol resistant foam, dry chemical.

Special fire fighting procedure: Use self-contained breathing apparatus and full protective clothing. Use water spray to cool drums in fire area.

Specific hazards during fire fighting: Thermal decomposition may generate carbon dioxide, carbon monoxide, and oxides of nitrogen and sulfur.

Unusual fire and explosion hazards: Solvent vapors., Emits toxic fumes under fire conditions.

Section 06 - Accidental release measures

Steps to be taken in case of spill or leak: Wearing appropriate personal protective equipment, contain spill, ventilate area of spill or leak; remove all sparking devices or ignition sources, collect onto inert absorbent, and place in a suitable container.

Section 07 - Handling and Storage

Advice on safe handling:

Keep away from heat and flame.
Wash thoroughly after handling.
Keep container closed.
Avoid breathing vapors and contact with skin, eyes, and clothing.
Use only with adequate ventilation and proper protective eyewear, gloves, and clothing.

Further information for storage conditions:

Store at appropriate temperature. See label for details.
Store in original container.
Transport and store under dry conditions tightly closed and protected from heat and light.
Pressure may build up slowly in closed containers due to gradual decomposition. This is accelerated by heat and light. May liberate combustible solvent vapors.
